**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of Group II, claim 1 and the species (1-(4-methyl-cyclohex-3-en-1-yl)-4-penten-1-one in the reply filed on January 31, 2008 is acknowledged. The traversal is on the ground(s) that the examiner (1) has not provided examples or reasons to support assertions of patentable distinction; (2) that it is not clear that the content of the claims was interpreted in light of the description; (3) that the examiner has not considered the relationship of the inventions with regard to 37 CFR 1.475(b)(3) and (4) that the examiner has not considered the relationship of the claims according to MPEP 806.03. This is not found persuasive because (1) and (4), MPEP Chapter 8 is not germane to restrictions made based on unity of invention; (2) the examiner wishes to clarify that he did consider the content of the claims in light of the description. In fact, this is part of the examiner's job description. Regarding (3), the examiner has pointed out the X references in the PCT Search Report, which is sufficient to satisfy this burden.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 2-7 remain withdrawn from consideration as being drawn to inventions non-elected with traverse.
3. Search and examination was not extended beyond the elected species, as that was found not to be patentable.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 provides for the use of unsaturated ketones, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 1 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

6. As the claim lacks utility, examination vis-à-vis the prior art was not undertaken, per Office policy.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318.
